

# TOFA 2022

September 12-16, 2022  
Kraków, Poland

18th Discussion Meeting on  
Thermodynamics of Alloys

## SPONSORSHIP OFFER

Dear Sir/Madam,

On behalf of the Organizing Committee of the international scientific conference "18th Discussion Meeting on Thermodynamics of Alloys TOFA 2022", I have the pleasure to invite you to support the next edition of this international event.

The aim of the TOFA conference is to present and assess the current state of knowledge and progress in the field of thermodynamics of metal alloys and phase equilibria in the broad context of materials science. The topics of the conference include the development of new alloys and their practical applications, advances in alloy testing methods and practical applications of thermodynamics, including in the metallurgical industry.

TOFA conferences gather scientists, including representatives of the world's leading centers in the field of thermodynamic research of alloys, students of materials science, representatives of the metallurgical industry, manufacturers of research equipment and software suppliers for science and industry, providing a forum for discussion and exchange of opinions. The previous edition of the TOFA conference, in the difficult year 2020, gathered 60 participants, and the earlier editions often gathered above 100 participants.

Organized by the Institute of Metallurgy and Materials Science PAS, the TOFA 2022 conference will be held on September 12-16, 2022 in Krakow, Poland. The framework program of the TOFA 2022 conference includes invited lectures, oral presentations, a poster session, a conference dinner, and a tour of the Old Town in Krakow.

The TOFA 2022 conference is an excellent opportunity to present your products and services to the 'thermodynamics of alloys' community. The success of the conference requires strong, reliable partners and sponsors. I am convinced that your participation in the TOFA 2022 conference will bring tangible benefits to both parties. Therefore, once again I invite you to read the attached offer for sponsors.

If you are interested please contact the conference office: [tofa2022@imim.pl](mailto:tofa2022@imim.pl). More information about the conference can be found on the event website: [www.tofa2022.pl](http://www.tofa2022.pl)

Yours sincerely,

Przemyslaw Fima

Chair of TOFA 2022

### ORGANIZER:

### CO-ORGANIZERS:

## SPONSORSHIP PACKAGES

The 18th Discussion Meeting on Thermodynamics of Alloys (TOFA 2022)

### GOLD SPONSOR – 1800 EURO net

- placement of company logo with the title 'Sponsor' in Conference programme and on the Conference badges
- placement of company logo on the Conference website
- distribution of the Sponsor's advertising materials along with Conference materials
- placement of company logo in national and international Conference advertising campaign (newsletter, press releases, announcements, social media, media partners)
- provision of a place for Sponsor's stand during the Conference (2 m<sup>2</sup>)
- official thanks during the opening of the Conference
- 1 free entry pass for the Conference

### SILVER SPONSOR – 1100 EURO net

- placement of company logo with the title 'Sponsor' in Conference programme and on the Conference badges
- placement of company logo on the Conference website
- placement of company logo in national and international Conference advertising campaign (newsletter, press releases, announcements, social media, media partners)
- provision of a place for Sponsor's stand during the Conference (2 m<sup>2</sup>)
- official thanks during the opening of the Conference

## BRONZE SPONSOR – 700 EURO net

- placement of company logo with the title ‘Sponsor’ in Conference programme and on the Conference badges
- placement of company logo on the Conference website
- placement of company logo in national and international Conference advertising campaign (newsletter, press releases, announcements, social media, media partners)
- official thanks during the opening of the Conference

## COMPANY PROMOTION – 500 EURO net

- provision of a place for Sponsor’s stand during the Conference (2 m<sup>2</sup>)
